

Controls On Atomic Energy Left Up To United Nations

By GRAHAM HOVEY
Washington, Dec. 28 (AP)—Russia aligned herself today behind Anglo-American proposals to put atomic energy controls up to the United Nations and in turn won a voice in control of beaten Japan.

These two results highlighted the 11-day meeting of Big Three foreign ministers in Moscow—a meeting which officially re-united the top wartime allies in their efforts to solve the formidable problems of peace.

Breaking a deadlock in their relations which lasted nearly three months, the United States, Russia and Britain also agreed, in a communique made public simultaneously in the three capitals last night, on:

1. The necessity for a unified, democratic and independent China under the National government now headed by Generalissimo Chiang Kai-shek.
2. The establishment of a provisional government for long-suffering Korea with prospect of complete independence for that nation in five years.
3. Broadening the governments of Romania and Bulgaria and plans for concluding peace treaties with them, along with Italy, Hungary and Finland.

Some Unsettled Problems
Architects of these agreements were Secretary of State Byrnes, Foreign Secretary Bevin of Britain, and Foreign Commissar Molotov of Russia. They hammered them out in a conference which—in results—provided a sharp contrast to the London meeting of foreign ministers last September.

Yet many vexing problems remained unsettled—and unmentioned. Among them are the uprising in Soviet-occupied northern Iran; the issue of access to the Dardanelles straits; Germany's western border, and a common Big Three policy on the Franco government of Spain.

Bevin told reporters in Moscow last night the Iranian issue had been discussed at length but without final agreement. He added, however, that the March 2 date for withdrawal of Russian and British troops from the little middle eastern country "still stands." The United States has promised to have its forces out by January 1.

Much Accomplished
But for all the unsettled points, Byrnes, en route home by plane, undoubtedly considers that the meeting called at his suggestion accomplished much.

Certainly it cleared the air in British-American relations with Russia and heightened chances for a successful first session of the United Nations assembly in London next month.

Byrnes told newsmen before leaving Moscow that the conference had been "very constructive" in accomplishments and in restoring "cordial relations."

Would Outlaw Bomb
In disposing, for the present, of the touchy atomic energy question, Russia agreed to join this country in the United Nations assembly which would establish a control commission, responsible to the powerful 11-member security council.

The atomic commission would consist of representatives from the 11 nations holding council seats (the U. S., Russia, Britain, France and China hold permanent ones) and Canada, which shares atomic energy secrets. It would work toward the exact goals outlined November 15 by President Truman and the prime ministers of Britain and Canada.

These include international exchange of basic scientific information for peaceful ends; control of atomic energy to insure its use for peaceful purposes only; elimination of atomic and other weapons adaptable to mass destruction, and safe (Please Turn To Page Two)

Reaction To Moscow News

Japs Dismayed
Tokyo, Dec. 28 (AP)—Japanese viewed with surprise and dismay today the Big Three decision for establishment of a four-power occupation council for Japan, which most observers regarded as a Russian victory in international bargaining.

General MacArthur studied intently the joint communique outlining the creation of an 11-nation Far Eastern policy-making commission and an Allied control council—but he had no comment immediately.

By late afternoon, Japan had not been advised officially of the Allied decision and, therefore, the government foreign office had not formally informed Emperor Hirohito of the development—which may have an important bearing as to his future status.

PRICE THREE CENTS

RATIONING OF SUGAR GOES TO PHILADELPHIA

Commencing January 1, all consumer and trade rationing of sugar in this 10-county district will be handled by the consolidated OPA District office in Philadelphia, the OPA has announced. The action is taken to relieve the work load at the local War Price and Rationing boards so they can concentrate on compliance by retailers of price regulations. After January 1, these boards will be known as Price Control boards.

Consumers holding War Ration Book 4 will continue to use the sugar ration stamp in it. New type sugar ration books to be issued to persons who do not have War Ration Book Four, and for replacement of lost, stolen or mutilated War Books Four, will be issued commencing January 1. This new book, consisting of a single sheet of stamps similar to those in book four, will be much easier to handle and will speed up issuance.

Price Control boards, after January 1, will serve as distribution points for the following forms only: New book application; consumer replacement application for lost, destroyed, stolen, wrongfully withheld or mutilated ration books, or sugar ration coupons; application for temporary sugar rations for members of the armed forces not entitled to a ration book.

Tires Off January 1
All other forms, including retail, wholesale, industrial, institutional, medical and bee-feeders, will be held at the district office in Philadelphia for distribution upon written request.

Industrial users have been served by the district offices for the past year and the files of institutional users, such as restaurants and hotels, were transferred to the district offices a few months ago. The trade operation will now be concentrated at the district offices by the transfer of the wholesaler and retailer files from the local boards.

With tires going off the ration list January 1, sugar remains the only commodity under rationing and OPA decided to transfer all duties and responsibilities involved in sugar rationing, except the distribution of the forms listed above, from price boards to district offices to make possible a more integrated staff and allow savings in overhead and management costs, OPA explained. OPA stated every effort will be made to expedite issuance of sugar rations at the district office in Philadelphia.

St. James Observes Communion Sunday

Warhurst. On Sunday morning the senior choir's anthem will be "Sweet is Thy Mercy" by Joseph Barnby. On Sunday evening the junior choir will sing "When I Survey the Wondrous Cross," by Lawrence Keating.

New members will be received into the fellowship of the church on Sunday morning by confirmation and letter of transfer. BURN CURE IS DEVELOPED IN JUNGLE FIGHT

Out of the steaming jungles of New Guinea came development of a new treatment for burns which brought relief to suffering GIs and promises to make even greater contributions to medical science in post-war years.

Known as the "Kleenex-penicillin" treatment, it was developed by a Pittsburgh doctor, John J. McAleese, major in the Army Medical Corps before his release six weeks ago.

Doctor McAleese is a nephew of Howard C. Mittinger, Oak Ridge, and has frequently visited Gettysburg. He was a personal friend of the late Dr. J. McCrae Dickson, and visited him regularly at the Annie M. Warner hospital. He also has a number of other friends here. He visited Gettysburg last month.

For his work, Doctor McAleese has been honored with the Legion of Merit. The citation for outstanding service as surgeon in the 27th General Army hospital based at Hollandia, New Guinea, credits Dr. McAleese with:

"Instituting a comprehensive research program which evolved the 'Kleenex-penicillin' treatment for burns, officially recognized as superior to any treatment known to medical science and particularly successful in tropical climates.

"This new method resulted in economy of materials, reduced sepsis (infection), alleviated suffering and expedited the healing of numerous cases. . . . Through extensive use of the treatment, hospitalization and lost time were materially shortened."

At the direction of the surgeon general, Dr. McAleese prepared a report for the Army Medical Journal in order to familiarize medical science with this new burn treatment.

The young Pittsburgh surgeon began research on burns in August, 1944, shortly after arriving in New Guinea—"hell hole" of the Pacific and known to GIs as the only place in the world where you can "get dust in your eye and mud on your boots at the same time."

It developed out of extreme necessity (Please Turn To Page Two)

BOMBS PERIL LIBERTY SHIP

New York, Dec. 28 (AP)—The Henry D. Thoreau, a Liberty ship out of Naples, Italy, for Cape May, N. J., messaged the navy here today that 5,000 tons of bombs were breaking loose and "if they give way entirely nothing can save us." The navy said it was not a troopship.

The Thoreau reported she was about 420 miles southwest of the Azores, the navy said, adding she had a normal crew of about 40 men. The message, received by the navy at 7 a. m., said the bombs had been stowed in a "tween decks hatch."

The bombs probably were some of those unused by American air forces in Italy and were being returned to an ammunition depot in the United States, the navy said.

An unidentified ship radioed the navy she was standing by the Thoreau, but could do nothing immediately to assist.

Further details were unavailable, the navy said.

UNO Sites To Be Narrowed To Six

London, Dec. 28 (AP)—A United Nations committee, after deciding that the capital of the world peace organization would be near the north Atlantic coast of the United States, met today to attempt to narrow the field to six proposed sites.

The committee, a seven-man investigating group appointed by the UNO Preparatory commission, announced yesterday that the capital would be in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania, New Jersey or Delaware.

The six sites selected will be visited by members of the committee, who plan to fly to the United States Jan. 3 or 4.

"Before we go we'll notify the officials of each city that we want no ceremonies, no parties, and the cost of the trip will be borne by the UNO," members said.

Push Drive For E Bonds

Adams county is still \$67,000 short of its E bond quota and the more than 200 volunteer workers are being urged to make every effort to attain this goal before the official closing of the Victory Loan campaign at midnight next Monday.

Only a few days remain in the campaign and members of the county war finance committee feel that if the workers make a concerted drive during the last few days the goal will be attained.

The overall bond sales in the current drive are far beyond the most enthusiastic expectations of the committee. Total sales as of December 22, the last day on which the state headquarters sent out official figures, were \$3,016,000, an oversubscription of \$1,476,000.

If the E bond quota is reached the overall sales will be more than twice the official quota of all types of bonds for the county.

To act as a clearing house or director of special agencies; to organize and operate a child guidance center which would help solve child and parent problems; to provide a follow-up service for the school health examination reports; to study and discuss current social problems in order to develop an informed public opinion, and to implement such study with appropriate action.

PLAN APPLE JUICE PLANT

A plant for processing apple juice is to be established in Chambersburg by a newly-formed organization known as the Franklin County Fruit Growers Association.

Thirty-six fruit growers are interested. The application for the charter is to be filed early in January.

Bottled or canned apple juice, increasing in popularity each year, will be the plant's only product. The apple pomace will be sold as a by-product.

The plant will provide a market for off-grade apples of growers of this area. The plant is expected to process 150,000 to 200,000 cases of fruit annually, doing a gross business of \$400,000 to \$500,000 annually.

MOSCOW MEET BOLSTERS HOPE OF WORLD PEACE

By DEWITT MACKENZIE (AP World Traveler)

London, Dec. 25.—The results of the Big Three foreign ministers' conference at Moscow certainly give brighter hope of a happy New Year. That hope rests not so much in any specific agreement—although there are some of high importance—as in the fact that the spirit of cooperation, which received such a nasty knock at the last foreign ministers' conference in London, seems to have been recreated. Unity of purpose among the Big Three is the great essential for peace, because as things now stand the weight of the world rests upon their broad shoulders. Without their full cooperation the forthcoming meeting of the assembly of the United Nations peace organization here would be the beating of an empty tub.

So it's good to see the Big Three machine running more freely, and there naturally is considerable speculation as to whether Generalissimo Stalin's presence in the Soviet capital—handy for quick consultation by his ministers—may have had something to do with the better atmosphere. Be that as it may, the calamity of the last foreign ministers' conference was reversed.

Key Decision
The most important agreement of the conference was the decision to create a commission under the United Nations organization to eliminate all atomic weapons and to develop atomic energy for the benefit of mankind.

The advent of the atomic bomb had produced suspicions and heartburnings which undoubtedly were at the bottom of the failure of the previous foreign ministers' parley. The Moscow decision is calculated to remove the suspicions, and this in itself would have marked the conference as having achieved a major success. More than incidentally this will give the United Nations organization a concrete major problem to deal with when it meets next month, and that's all to the good.

Of course the Moscow conference appears to have left some delicate and important difficulties unsolved. Among these are Russia's relations with Persia and Turkey, both questions of world importance and full of dynamite.

However, it would be absurd to expect the Big Three foreign ministers to be able to iron out all their differences at one sitting. So long as there is a spirit of real cooperation, the differences will take care of themselves.

The chances of perpetuating peace are vastly improved.

BURN CURE IS

(Continued from Page 1)

sity. In the steaming tropical climate, GI burn casualties were suffering terribly on being treated with the established "pressure dressing" method. The heavy rolls of bandages were well-nigh unbearable in the extreme heat and humid weather.

Success Achieved
Thus it was that Dr. McAleese began experimenting with the soft light cleansing tissues and penicillin. After considerable research, the two were put together. The result brought cheers from suffering GI and doctors alike.

In using this treatment on some 80 cases, Dr. McAleese lost only one patient—and that was a virtually hopeless 80 per cent burn case.

Among patients treated were casualties from the Peleliu, Leyte, Bika Morota and Luzon invasions—including a number of Australian sailors, victim of four Kamikaze suicide hits at Luzon.

The patients all were severe burn cases, victims of everything ranging from Kamikaze plane attacks on ships to flame-throwers in beach-head fighting.

Doctor McAleese, surgeon on the medical staff of Presbyterian Women's and Children's hospitals and the University of Pittsburgh, foresees many additional uses for the treatment. He has used it effectively on skin grafting, and infection cases. Recently he employed it successfully on a leg infection baby case at Children's hospital.

He is a graduate of the University of Pittsburgh, medical school class of 1935, and is a fellow of the American College of Surgeons.

Russians Restore Nazi Oil Plant

Berlin, Dec. 28 (AP)—Russia is receiving 200 tons of gasoline daily from the giant Leuna synthetic oil plant near Merseburg, bombed out of production by the Allies but now restored sufficiently to produce 20 per cent of its wartime peak.

Leuna, frequent target of U. S. Flying Fortresses, was bombed 22 times from May 1944 to March 1945. Approximately 40 per cent of the plant was totally destroyed and 70 per cent was unroofed. A German expert estimated that it would require at least five years to restore the sprawling factory to its former condition.

The title of Leuna, formerly owned by I. G. Farben Industry, now rests with the Allied control council for Germany.

TIGHT CURFEW IN JERUSALEM AFTER BOMBING

Jerusalem, Dec. 28 (AP)—Helmeted British tomies enforced a tight curfew in municipal and Jewish residential quarters of this uneasy city today while investigations began of bombings and gunfire which last night killed at least nine persons and injured 11.

Business was almost at a standstill. Thousands of persons in the curfew area were confined to their homes. Local telephone communications went out after 6 a. m. and some morning newspapers did not appear.

Early in the day truckloads of civilians were seen rumbling up to detention barracks for questioning in connection with the bombings which destroyed the criminal investigation department headquarters.

Only British forces and government officials were exempt from the curfew, and police trucks, radio cars and military vehicles patrolled the streets to enforce it. Both here and in Tel Aviv, where the whole city is under curfew, parachute troops armed with machineguns stood guard, some in concealed rooftop positions.

7 Killed, 11 Hurt

Squads of workmen dug through piles of rubble at the headquarters in Jerusalem, where seven persons were officially reported killed and 11 injured either by gunfire or in a series of heavy explosions which damaged a three-block area in the heart of the city.

Eye witnesses were quoted as saying that six young men—some carrying pistols, some bomb-filled haversacks—shot their way to the gates of the police building, where they placed explosives which turned the place into a shambles.

At the same time, terrorists attacked district police headquarters in Tel Aviv, scene of riots last month in which nine Jews were killed, and attempted a raid on the royal engineers arms store at an exhibition grounds north of the city a communique said.

Navy Vets Protest Travel Conditions

Fort Wayne, Ind., Dec. 28 (AP)—

Many of the 573 navy veterans got off an eastbound Pennsylvania railroad troop train when it stopped here last night and it was delayed nearly two hours as several of the seamen refused to reboard it until conditions which they described as "bad" were remedied.

Pennsylvania railroad officials here said no protest had been filed but Chief Petty Officer John Hunter, who said he was a spokesman for the seamen, said none of the train's 11 coaches had any water for 25 hours and that three of the coaches had no lights.

During the delay here water was put in and broken windows in coaches were repaired. Two wooden coaches were taken off. Hunter also said the 150-mile trip from Chicago had taken 14 hours and the train traveled at a speed of 40 miles an hour, being sidetracked for both passenger and freight trains.

Future Surpluses Of Eggs Feared

Washington, Dec. 28 (AP)—An Agriculture Department report on marketing problems declared today an "aggressive industry" is needed to help combat future egg surpluses.

Prepared by P. L. Thomsen, head of the marketing division of the Bureau of Agricultural Economics, the report said the time will come when "we shall be searching perhaps frantically for ways of utilizing a surplus without feeding it to hogs or dumping it in the rendering tanks."

One possible way to increase consumption, the report said is to make eggs available in greater quantity during off seasons of the year and to people who do not now use many eggs because of price or other considerations.

Truman's 'Report' To Be Given Jan. 3

Washington, Dec. 28 (AP)—President Truman's radio report to the nation will be made between 10 and 10:30 p. m. (EST) Thursday, January 3.

The White House made this announcement today and said the speech will be carried on all networks from the first floor oval room of the White House.

"As the President announced in Independence, it will be sort of a report to the people on his overall program," said Charles G. Ross, press secretary.

"It is not to be confused, of course, with the state of the nation message to Congress some time after January 14," Ross said, mentioning the date Congress is to reconvene. It has yet to be decided definitely whether Mr. Truman will deliver the message to Congress in person.

MORE DEATHS BY MONOXIDE

Pittsburgh, Dec. 28 (AP)—Allegheny county today had recorded its 35th death of the year from carbon monoxide gas—a record toll here from that cause.

Most of the deaths occurred in Pittsburgh, tenth largest city of the United States. The county's previous record of carbon monoxide deaths was 34 in 1943.

The latest deaths, those of Peter McLaughlin, about 65, and his brother, Patrick, about 56, in their south side home, were discovered last night only after police, following a call from neighbors, broke down a door and entered the house where the men lived alone.

Asks Official Action

The McLaughlins had been dead more than a week, in the opinion of morgue officials.

In the case of these deaths, as in most others from monoxide throughout the year, one phrase ran through the reports: "A small gas stove without a flue was found burning in the tightly closed room."

Coroner William D. McClelland, taking official notice that 21 persons had died of monoxide fumes since the advent of cold weather, called for a series of conferences of public officials to combat the invisible menace.

MacArthur Status?

For control of Japan, the Big Three foreign ministers agreed to establish a four-power (U. S., Russia, Britain, China) council in Tokyo and an 11-nation Far Eastern policy-making commission in Washington, to replace the present 10-member advisory commission.

One U. S. official concerned with the Far Eastern policy-making machinery said that as a practical matter, the present advisory commission would become the new policy-making body, with the addition of Russia which previously refused to participate.

Release of the communique touched off much speculation about the extent to which the policy-making commission and the four power council would curtail the authority of Gen. Douglas MacArthur as supreme Allied commander in Japan. The document provided no clear-cut answer.

RECORD TAX LEVY

Pittsburgh, Dec. 28 (AP)—Pittsburgh's 1946 appropriation bill, which will be offered for final passage at a special city council meeting tomorrow, authorizes expenditures of \$26,202,778. WOULD CURB PETRILLO

Washington, Dec. 28 (AP)—Early congressional action on legislation designed to curb the powers of James C. Petrillo, head of the American Federation of Musicians, was urged today by Chairman Lea (D-Cal.) of the House Interstate committee.

Reaction

(Continued from Page 1)

praised the results of the "Big Three" foreign ministers' conference which ended here yesterday with agreements on the atomic question and other vital problems.

Izvestia, official government paper, asserted that the "decisions of the Moscow conference witness that a new step has been made toward the development of collaboration of the Allied states."

Acclaim From London

London, Dec. 28 (AP)—Diplomatic circles today acclaimed the Moscow conference as a revival of cooperation and trust among the big powers which promised to open the way for settlement of many vital problems still standing on the road to world peace.

While recognizing the importance of the matters agreed upon at Moscow, these circles were quick to point out that the conference left other equally important issues unsettled

COLLEGE BODY WILL BE KNOWN AS ECAC SOON

After eight full years of successful operation under its original title, the central office for Eastern Intercollegiate Athletics will next week acquire a new name. Beginning January 1, 1946, this administrative agency of the college athletic associations will be known as the Eastern College Athletic Conference, a less cumbersome title believed by the interested colleges to be accurately indicative of the work of the organization.

At the time of its establishment on January 1, 1938, the COEIA brought twelve separate intercollegiate sports groups together in a single federation for the sake of the improved efficiency and increased economy to be achieved through their administration as a unit. In its ninth year of activity—and first as the Eastern College Athletic Conference—the office will function with no less than twenty intercollegiate athletic leagues and associations as its affiliates. These leagues and associations are responsible for programs of competition in fourteen different branches of sport—baseball, basketball, cross country, fencing, football, 150-pound football, golf, gymnastics, hockey, rowing, swimming, tennis, track and field, and wrestling.

Serves 94 Colleges
The Eastern College Athletic Conference will continue the work of its predecessor organization by serving the ninety-four colleges which hold memberships in one or more of the affiliated groups. It will continue to maintain general headquarters at the Baltimore Hotel, New York city.

Asa S. Bushnell of Princeton, N. J., having filled the position of executive director of the COEIA since its foundation, has been designated commissioner of the Eastern College Athletic Conference. The executive council will be made up in 1946 of the following five athletic directors: C. E. Bilheimer of Gettysburg, Ralph Pury of Columbia, Col. Lawrence McC. Jones of Army, William A. Reid of Colgate, and H. Jamison Swarts of Pennsylvania.

Federated Groups
The twenty organizations now federated in the conference are these: Collegiate Basketball Officials Bureau, Eastern Association of Rowing Colleges, Eastern Intercollegiate Baseball League, Eastern Intercollegiate Basketball League, Eastern Intercollegiate Football Association, Eastern Intercollegiate 150-Lb. Football League, Eastern Intercollegiate Golf Association, Eastern Intercollegiate Gymnastic League, Eastern Intercollegiate Swimming League, Eastern Intercollegiate Tennis Association, Eastern Intercollegiate Wrestling Association, Heptagonal Games Association, ICAAAA, Intercollegiate Fencing Association, Intercollegiate Ice Hockey Association, Intercollegiate Rowing Association, International Intercollegiate Ice Hockey League, Middle Atlantic Collegiate Track and Field Association, Middle Atlantic Intercollegiate Football Association, Pentagonal Hockey League.

PSEA STUDIES SCHOOLS' JOB

Harrisburg, Dec. 28 (AP)—Representatives of more than 50,000 Pennsylvania teachers and school administrators set their sights today for education's adjustment from war to peace, with one educator's admonition that their most important job is to "get children out of the mood of war."

Emphasizing the "stimulus of violence" that has surrounded boys and girls during the war years, Lyman Bryson of New York, director of education for the Columbia Broadcasting system, told the Pennsylvania State Education association yesterday that educators did not err "in teaching peace" in the 20 years between the first and second world wars.

That groundwork, Bryson asserted, "changed us from a powerful nation that was afraid of its power, to a nation that is resolute, determined and ready" to do its part in a cooperative world.

An attempt to open general discussion on universal military training—a topic that has been confined to sectional meetings within the convention—was voted down after Bryson's speech.

The 600 delegates elected Miss Cathleen M. Champlin, a teacher in Childs elementary school, Philadelphia, to head the association next year. Her opponent was Norman C. Brillhart, a Reading high school teacher.

Grid Coaches Favor More Bowl Games

Montgomery, Ala., Dec. 28 (AP)—The more the merrier—as long as the public wants 'em.

That was the attitude expressed by some of the nation's big-name football coaches today toward an increasing number of post-season bowl games.

In answer to an Associated Press questionnaire, they discounted fear that more attention to out-of-season play would adversely affect college competition.

Nor did they agree restrictive action may become necessary.

Many High School Court Tilts Tonight

Harrisburg, Dec. 28 (AP)—Two of Pennsylvania's leading scholastic basketball teams clash tonight when Donora, last year's western champion, invades the home court of the unbeaten Sharon Tiders in the feature tilt of an exceptionally heavy holiday program.

Donora dropped two early season games, but the state finalists hit their stride against Ford City and have rolled along in championship form for the past two weeks, defeating Alliquipp last night 43-38.

Meanwhile Sharon won seven consecutive games without a setback, tallying 305 points.

In other games across the state Allentown risks a five-game winning streak against the alumni; Hazleton plays host to unbeaten Nesquehoning; Williamsport invades Hazle Township; Lebanon goes to Easton; Pottsville tests Lancaster; and Hershey Industrial journeys to William Penn of Harrisburg.

Sports Roundup

By HUGH FULLERTON, JR.
New York, Dec. 28 (AP)—Manager Bill Daly claims he has one-third of the crop of white heavyweights in Freddie Schott, Lee Savold and Pat Comisky. . . . Looks like a big job ahead for the Department of Agriculture and maybe it should be started by resuming the old practice of ploughing 'em under. . . . The Association of College Baseball Coaches, at its first "annual" meeting in St. Louis next month, will award honorary memberships to a group of old-timers, most of whom have retired from active coaching. . . . Joe (Chattanooga) Engel took the simple, direct approach when he picked a name for his new hound dog. He loaded the poor animal with the appellation of "Wrinklepuss."

SO LONG, POP
This writer has just received word of the death of Hugh Fullerton, Sr., a great sports writer whose pointed comments occasionally have been related here second-hand. . . . "Pop" started writing baseball when the reporters called themselves "Shills" because of their efforts to tell about a game they loved. . . . It is a familiar story in newspaper circles how the Baseball Writers' Association of America was born because Hughie came into the Polo Grounds press box, found every seat filled and had to cover the game while sitting on the lap of Louis Mann, the actor. . . . It is a great personal loss and an equally great loss to the sports fraternity. . . . What he did was good for sports.

DISCRETION—AND A USED CAR
The beat-up blue sedan Shorter Luster, Oklahoma's retiring football coach, has been chugging around in for 10, these many moons, is eight years old—and looks it. The other day, Shorter decided to sell and drove it gasping to a garage. "What'll you give?" he asked. The guy scratched his head, came up with—"700." "Sold," yelled Shorter, practically leaping from the heap. "Wait a minute," the salesman stopped Shorter heading out the door. "Hold it a second and I'll drive you home." "Not me, brother—I know when to walk," replied the disappearing Mr. Luster.

BOUNCING AROUND
Hialeah race track recently sent the St. Louis zoo four flamingoes. . . . Now if they can only get the hippos to run six furlongs in 1:10. . . . Don't look now, but Ed Milko-vich the one-time Duquesne basketball, is supposed to be a clinch for the Carnegie Tech coaching job. . . . He's "caging" at Will Rogers field near Oklahoma City now.

FENIMORE WILL TOP BOWL STARS

Dallas, Texas, Dec. 28 (AP)—The greatest one-man offensive in college football history — bounding Bob Fenimore of Oklahoma A. and M.—leads an imposing array of statistical satellites into the nation's bowl games on New Year's Day.

Audited reports of the National Collegiate Athletic Bureau covering the 1945 season were released today by Homer P. Cooke, Jr., director, showing Fenimore to be the first player ever to twice lead as the yardage producer.

Fenimore failed to equal his 1944 total of 1,758 yards combined rushing and passing, but his 1,641 yards on 203 plays in eight games was well ahead of any other performer in the nation. Second was Harry Gilmer of Alabama who rolled up 1,457 yards and third was Herman Wedemeyer of St. Mary's with 1,428. However, Gilmer played in nine games, Wedemeyer only eight.

Fenimore failed to equal his 1944 ball-carrying title with a total of 1,048 yards net gain—the first time any lugger has gone above the 1,000-yard level since 1942 when Rudolph Mobley of Hardin-Simmons carved out the all-time standard of 1,281. It also was the first time any player had paced the nation both in total offense and rushing since Whizzer White turned the trick in 1937.

Fenimore and Wedemeyer will vie in the Sugar bowl at New Orleans; in fact, the top four ground-gainers by combined rushing and passing will be on display in three bowls—the Sugar, Rose and Orange. Gilmer will be in the Rose bowl and the fourth-place man, Stan Koslow-ski of Holy Cross, who got 1,279 yards on 247 plays in nine games will strut his stuff at Miami.

Sport Shorts

Miami, Fla., Dec. 28 (AP)—Psychological warfare is raging between the Orange Bowl football opponents, with Coach John Dargosa of Holy Cross firing a broadside of righteous indignation today over the "cockiness" displayed by the University of Miami team.

Pasadena, Calif., Dec. 28 (AP)—Call it what you will, there's a growing feeling around here that odds making Alabama a 13-point favorite over Southern California in the Rose Bowl are out of line.

Southern California sportswriters took a good look at Alabama yesterday and found the Crimson Tide on the thin side. So thin and youthful, the writers began expressing doubt concerning the Tide's ability to withstand the battering of the Trojan Behemoths on New Year's Day.

New Orleans, Dec. 28 (AP)—Coaches of the rival Sugar Bowl football teams today observed the traditional pre-game ceremony of putting each other on the spot.
Coach Jim Lookabaugh of Oklahoma A and M said the bookmakers' selection of his club to win by two touchdowns was without foundation in reason. Coach Jim Phelan of St. Mary's said the margin was too small.

Philadelphia, Dec. 28 (AP)—The Philadelphia Athletics, doormats of the American League this year, will be in the thick of the 1946 pennant race, says Chief Bender, famed Athletics pitcher in 1919 and 1911.

Bender told the Optimist club here yesterday that 70 men will report to the A's Florida spring training camp "all anxious" to give Connie Mack a championship team.

Philadelphia, Dec. 28 (AP)—The Philadelphia Eagles of the National Football League won't know until mid-January whether the new All-American conference is trying to sign their players.
An Eagle spokesman said contracts are not mailed out until after the league meeting in mid-January.

Jock Sutherland To Coach Steelers

Pittsburgh, Dec. 28 (AP)—The Pittsburgh Steelers of the National football league disclosed that Dr. John B. (Jock) Sutherland, former coach of Pitt and for the Brooklyn Dodgers, would sign today as the Steelers' new coach.

Just Folks

By EDGAR A. GUEST
ACCOMPLISHMENT
This is the truth of it, take it from me,
Little girls mostly are smart as can be.
Here's my deduction: from all I discern,
Little girls mostly are eager to learn.
Wisdom they gain with remarkable speed,
Ellen Elizabeth's started to read!
"I know that word!" she announces to me,
Pointing her finger and saying it's "tree!"
That one is "kitten" and that one is "gate."
There's an accomplishment truly that's great!
Proud of her? Promptly I answer: "Indeed!"
Ellen Elizabeth's started to read.
Knows all her letters from A down to Z.
Picks them out promptly and names them to me.
Over my paper she carefully goes,
Seeking for new words to boast that she knows.
Clever? Well, that is a fact I concede.
Ellen Elizabeth's started to read.

Today's Talk

By GEORGE MATTHEW ADAMS
ON COMMUNICATING
There is no joy like the joy that comes out of you and which you impart to someone else. The scientist, the artist, the writer, the discoverer, and the creator in all phases of achievement, would be little inspired did he not feel that his product radiated and brought physical, mental or spiritual profit to others.
The power of a great novel lies in what is revealed of the thought of the writer. Many a novel has stood out as an epoch, such as "Uncle Tom's Cabin," "The Man Without a Country," "Les Miserables," "The Pilgrim's Progress," and "Looking Backward," just to name a few. And it was "The Origin of Species" that aroused the world to a new line of thinking, as well as that famous book by Henry George "Progress and Poverty."
Ever since the written word was put into type so that knowledge might become universal, ideas, thoughts, theories, and an endless variety of human expressions, have been communicated to all the world. And this is what has made progress and happiness possible.
All my life I have accumulated books. Each one of them has communicated something of intellectual and spiritual nourishment to me. And this is the case with all good books. Every library is a distributor of knowledge. So is every teacher in every school or college.
We give out ourselves, too, and other people give of themselves to us. Our One World has been made possible because of quick communication by way of the aeroplane and radio. We wouldn't be happy if we couldn't communicate with others. What a service is rendered by our Post Office department, in communicating thoughts from those near and dear to us, as well as making business thrive, through letters.
The happiest communication, however, is that which we have with a friend, either by letter or in person. And it must not be forgotten that the humblest and poorest gives out something of worth from himself. We are all debtors to many.
Tomorrow Mr. Adams will talk on the subject: "These Witnesses of Ours."

BIG FIRE SLOWS RESCUE WORK IN MINE EXPLOSION

Pineville, Ky., Dec. 28 (AP)—Rescue crews trying to reach more than 30 coal miners trapped early Wednesday by an underground explosion, today said on emerging from the pit that they faced their biggest fire yet encountered.

The weary men said a big timber fire was raging which would take some time to extinguish. They reported 22 fires had been put out thus far.

The rescue squads said they were at least 1,500 feet from the actual scene of the blast but they were at the point where they may begin to find some bodies at any time.

900 Feet In 12 Hours
As the search for the miners, entombed in the number one mine of the Kentucky Straight Creek Coal company, entered its third day, new fire fighting crews were being called from the surrounding counties to relieve the exhausted toilers.
Efforts to reach the trapped men were hampered by great accumulations of fallen rock.

The rescue squads, working in relays in the debris-blocked tunnel, pressed forward 900 feet in a 12-hour period overnight. They held no hope of finding alive the men who were entombed by a heavy explosion early Wednesday.

"Nothing Alive In There"
Estimates of the distance to the trapped men ranged from 2,000 to 7,000 feet. Earl Lewis, superintendent of the No. 1 mine of the Kentucky Straight Creek Coal company, placed the distance at 7,000 feet upon emerging from the mine last night, after 26 hours with a rescue crew.

Lewis, son of owner W. E. Lewis, asserted "it would be a miracle if they found even one of those men alive. There is not even a mouse alive in there."

Lewis said he was convinced the 31 men whose names were on the list of those issued lamps before the unexplained explosion all were trapped in the mine. Mine officials previously had estimated 30 to 50 men were entombed.

Enchanted Journey

By Helen R. Woodward

Chapter 8

The week before her departure
from New York was indeed a never-
to-be-forgotten one for Edith, but
not in quite the way that Laura had
hoped it might be. There was a great
deal of shopping to be done, both
for Laura and herself. In spite of the
fact that Laura was selecting her
own trousseau, she was determined
that the Laceys of Kentucky
should be able to find no fault with
her daughter's grooming. So it was
with trunks and bags neatly and
adequately packed by Dabney's lov-
ing hands that Edith made ready
for her journey.

One afternoon Laura and Edith
had managed to slip away from ev-
eryone, and attend a matinee to-
gether. In the quiet darkness of the
theatre they welled up within
Edith's being such a flood of love
and longing for this woman be-
side her that she could not help
seeking her mother's hand. Like a
child she twined her fingers about
Laura's and held on desperately.

Laura's eager, answering squeeze
brought a warm feeling that was
half pleasure and half exquisite
pain; and they had sat there with
fingers intertwined throughout the
play. Afterwards Chris and Alan
Crosby had taken them to dinner,
but Edith knew that both she and
her mother would always cherish
those hours in the theatre.

Then on Wednesday morning they
went to St. Thomas' and in the
quiet beauty of the old cathedral
Laura and Chris were made man
and wife. Edith stood beside Alan
Crosby and Dabney, her entire be-
ing a volcano of mixed emotions.

Pleasure at the happiness of her
mother and an aching loneliness
strove for supremacy. She saw Chris
face, coming out of the shadows, a
slanting ray of sunlight, his
countenance as radiant as Laura's.

She believed that neither Chris
nor Laura had suspected how she,
Edith, felt about Chris. She was
proud that she had never given way,
had never faltered.

She blessed her father for his
invitation. Now it did not seem to
matter any more just who had ar-
ranged it. She knew she could never
have gotten through the summer
without a change of some sort.

During the ceremony Dabney
smiled quietly in her corner, but
Edith knew she was fond of Chris,
would welcome the opportunity to
serve both him and Laura.

She glanced once at Alan Cros-
by and was startled at the tight-
ness of his jaw, the bleakness of
his eyes. She knew in that mo-
ment that he loved Laura, too!

Before they left the apartment to
go to the church Laura had called
Edith into her bedroom and the
two had clung together for a long
moment.

"Things mustn't be any different
between us, Edith," Laura said once
more. "We've had so much more
than most mothers and daughters.
We mustn't let anything change
that!"

Then Dabney had said the cab
was waiting and they all went to
the church.

The solemn, deeply-significant
words were ended. Laura and Chris
were smiling at each other, they
were in each other's arms. Every-
body was smiling and offering con-
gratulations. Laura had Edith in her
arms for a final embrace, Chris
brushed her cheek with his lips.

Edith and Dabney went home. As
they stepped over the threshold and
Edith started to remove her hat,
Dabney placed a trembling hand on
her arm. Edith was surprised to see
the plain, worn face was working
uncontrollably.

"What is it, Dabney, dear?" she
asked, putting her arm around the
old woman reflecting in her loneli-
ness that Dabney at least would be
someone to anchor to. But what was
Dabney saying?

"It's had to be heart-break for one
of us, Edith," Dabney's voice came
strong and clear now, and just a
little belligerent. "I was afraid for
a while it might be her. She went
through it once—it wouldn't be fair
again. You'll get over it quicker than
she ever could!"

Edith's eyes were wide with
amazement. Dabney of all people,
knew! She had not been able to fool
Dabney! She grasped Dabney's
black-clad arms frantically.

"You'll never let her know?" she
asked breathlessly. "What do you
think?" she demanded.

On Friday Dabney saw Edith off
at the station. Through a stroke of
luck Chris had managed to get her
a pullman.

Late the next afternoon Edith's
train pulled into the station at Lex-
ington. She did not know when she
had abandoned all thoughts of not
going to her father. She only knew
that for hours now she had been
conscious of a mounting excitement.

In a few moments she would meet
her father. Surely this day must
mark a milestone in her life, must
be far-reaching in its influence on
her future.

Then almost before she knew it,
she was descending from the train
and in spite of the crowd that milled
about the gateway, she had no diffi-
culty in picking out a figure, taller
than the rest—a man clad in im-
maculate white, a Panama hat in
his hand. And on his dark hand-
some face such a look of eager an-
ticipation as to make her catch her
breath sharply.

"That's Whit, all right!" she said
to herself. Suddenly she was trem-
bling with excitement. "That's my
father, I would have known him
anywhere! Why—why, we're as alike
as two peas!"

Chapter 9

The moment Edith's foot touched
the cement platform, Whit Lacey
was striding toward her. She was
surprised at his youth, the almost
unbelievable good looks of him. Con-
fused memories of what Laura had
told her of this man churned about
in her mind, but none of them had
really prepared her for his actual
appearance. Until this moment he
had been a shadowy figure of the
imagination. Least of all was she
prepared for the startling likeness

between them, for when his fine
hand met hers something passed
between them as if each had found
something long lost which belonged
to the other.

"Hello, Edith," Whit said, too
casually, for his hand was trembling.
His white teeth showed in his brown
face in a brief confused smile. "Wel-
come to Kentucky, my dear!"

"Thanks! It—I'm sure it's going
to be pleasant."

"Rather warm for June—but it's
our best season here. Glad you could
come at this time."

"Thanks!" Edith said again still-
edly, hating herself for the feeling
of childish awkwardness that pos-
sessed her.

They reached Whit's car—a long,
grey coupe—and it helped her in,
then went to see after her baggage.
In a short time he returned and
they were threading their way
through the traffic of Main street
and out into the beauty of the June
countryside.

Something caught in Edith's
throat—as ever city dwellers are
first affected—while then and there
the blue grass country claimed her
for its own.

On a slight rise of the roadway
Whit slowed the car and pointed to
an artist's view of rolling land.
"Rather a pretty picture," he of-
fered modestly, as if he, himself, had
painted it; but back

MORE CLOTHES FOR MEN IN '46 SOUGHT BY U. S.

Washington, December 28 (AP)—Doggedly persistent in the face of only partial success thus far, the government will try again next year to put a generous supply of inexpensive clothing on the market.

The principal goal in 1946 will be to make more low and medium-priced suits available for veterans and for boys.

Departing from present practice, the Civilian Production Administration will issue no priorities during the next quarter for production of women's or girl's woolen clothes. This is a move to provide more suits and coats for veterans.

Earmarked Material
Priorities will continue to be granted, however, for all kinds of essential garments made of cotton or rayon.

For the first three months of next year a total of 23,000,000 yards of wool fabrics will be earmarked by the CPA for use in suits and 7,000,000 pairs of men's and boy's trousers and 15,000,000 overcoats and topcoats.

The goal for all of 1946 is between 28,000,000 and 30,000,000 suits, and CPA says it hopes that 14,000,000 of these will sell at low or moderate prices.

To Continue Program
For example, a top retail price of \$33 has been set for men's suits made during the first quarter of next year by manufacturers who accept government aid in obtaining material.

There is nothing in the program to compel manufacturers to participate. There was no such requirement this quarter either, and as a result only about 60 per cent of the fabric set aside was claimed for inexpensive garments, CPA officials acknowledge.

In announcing last night that the government clothing program would be continued next year, CPA Administrator John D. Small said production of men's suits this year was only 70 per cent of the 1944 total, and that the only way to assure output of an adequate supply in the lower price ranges was to maintain government aid to manufacturers seeking materials.

FRANCE BLOCKS GERMAN FUTURE

Frankfurt, Dec. 28 (AP)—Gen. Joseph T. McNarney, chief of the U. S. occupation forces in Germany, expressed belief today that it would be virtually impossible to restore a minimum sustaining economy for Germany so long as the French hold out against treating the country as a single economic unit.

McNarney's view was set forth in his first monthly report as U. S. military governor, which reflected an attitude of tempered confidence. Further progress has been made in de-Nazification, breaking up of German cartels, and laying the machinery for reparations, and there are no immediate threats of epidemics or revolt, he said.

But in the basic matter of establishing administrative agencies for Germany, McNarney conceded, Allied control authority is deadlocked. "Restoration of a minimum sustaining economy is most difficult if not impossible as long as artificial zonal boundaries restrict legitimate movement and trade," he asserted.

Urges Increase In Number Of Police

State College, Pa., Dec. 28 (AP)—A proposal was made today by a Pennsylvania State college safety expert to immediately expand all state and local police forces to curb the growing accident rate on American highways.

Amos E. Neyhart, administrative head of the college's Institute of Public Safety, said most police forces had been depleted by war and currently were too small in size to cope with the problems created by a new generation of automobile drivers.

SURE THING

Tacoma, Wash. (AP)—Cabbie Tom Leuggett made certain of getting police help in jig time. He drove his taxi directly into a couple of patrol cars parked at a police station door. The crash brought all the help needed to handle a passenger who, said Leggett, had threatened him.

NO SKIN GAME

Los Angeles, (AP)—Mayor Fletcher Bowron believes a man's skin is his own. So he vetoed an ordinance requiring special permits for tattoo artists. If an adult wants to get himself decorated, there should be no interference, he said.

What About The Railroad Worm?

Letters from readers in somewhat widely separated regions indicate the common railroad worm (apple maggot) was numerous in 1945 and caused considerable damage to certain varieties of apples. Due to the fact this enemy is frequently confused with codling moth larvae, a few random suggestions about its habits and control are timely.

The adult or parent form of the railroad worm is a small fly, resembling the house fly, except that its wings are conspicuously marked by cross bands. It usually emerges in early July and after a few days begins to deposit its tiny eggs in partly grown apples, preferring the early sweet or sub-acid varieties. Later flies may even infest the more sour fall or late varieties.

These eggs hatch into small larvae or worms and the worms begin to feed at once in the flesh of fruits then nearing maturity, often causing apples to drop partly decayed to the ground. There the larvae emerge and enter the soil to pupate. The pupal cell looks like a grain of wheat, both in size and color. There may be a second generation in late summer and early fall, although maggots from this brood are believed to be from late pupae of the previous year and not from early ones of the same season.

Control may prove difficult, although by no means impossible or impracticable. Of course, prevention is a recognized measure of combat, particularly in keeping all wild or worthless seedling apple trees removed from nearby fence rows and other idle areas. Too, fairly deep cultivation around apple trees in May and early June or any time after warm weather arrives and before the flies emerge will destroy most of the dormant pupae. In addition to apples, railroad worms attack plums, pears, cherries, huckleberries, cranberries and a few fruit-bearing ornamental plants, such as snowberry.

Several readers have inquired about the roles DDT will play in control of the railroad worm. To date no information is available on this subject and it is doubtful that any definite tests will be announced until after the 1946 growing season. In fact, the older insecticides have

proved satisfactory to date to warrant their continued use. It is not so much a matter of obtaining a more effective insecticide as it is applying at the proper time the effective ones already at hand.

The egg-laying flies are easily killed because they lap moisture from apple leaves before they deposit their eggs. If the foliage is kept coated with arsenate of lead (1 to 1½ pounds to 50 gallons of water) after the first few days in July, with applications repeated 10 days later and perhaps again in late August to protect later susceptible varieties, control will be satisfactory. It should be noted that varieties not attacked by apple maggots need not, of course, be sprayed.

Growers should observe the distinct differences between railroad worm and codling moth ravages, especially as to the varieties affected. Too, winter is an excellent time to write the editor to clear away all doubtful points about these and other fruit pests before the actual difficulties arrive. The editor will appreciate letters from fruit growers who experienced losses from the railroad worm last year, with infested varieties named.

ASPERS MAJOR IS PRESENTED BRONZE MEDAL

On the fifteenth anniversary of his service to the Army Air Forces, Major Harry R. Beamer of Aspers, Adjutant General with the advance echelon, Far East Air Forces, Tokyo, was presented with the Bronze Star award for "exceptional devotion to duty" over the past three years.

The presentation ceremony was a surprise to the mild-mannered major who, as adjutant general, ordinarily would have seen the orders several days before anyone else. But an enterprising junior officer snatched them from his desk before he had a chance to see them. The award was made by Brig. Gen. Rupert E. Starr, FFAF's Anti-aircraft officer.

The award came 15 years to the day after Major Beamer left Aspers to join the Air Forces, Enlisting on Dec. 9, 1930, he was assigned to Hawaii in a clerical capacity where he served until 1936, after which he stayed at Mitchell and Langley Fields as an enlisted man before returning overseas.

In January, 1942, he was sent to the Pacific with the rapidly growing Allied Air Forces and received a direct commission in September of that year at Melbourne, Australia. Major Beamer accompanied the Air Force in the "long road back" and was consistently assigned as adjutant general of the various forward echelons of the Allied Air Forces, later the 5th Air Force, and still later, the Far East Air Forces under command of Gen. George C. Kenney.

He has been assistant air adjutant general in FFAF's Pacific headquarters for more than three years. This has included two D-Day landings at Lingayen and Subic Bay where he organized and operated the courier mail system for the Allied Air Forces. He was among the first FFAF men in Japan.

Major Beamer's citation notes his "broad knowledge of administrative procedure and policies in the Southwest Pacific area and his willingness to work without regard for hours to perform his arduous duties," "which greatly expedited the operation of these headquarters."

"Exceptional Service"
The citation continues: "When Major Beamer was placed in charge of the Adjutant General's Radio and Cable Division of Headquarters FFAF, he directed the operations of this vital section with great success, although constantly handicapped by an insufficient number of trained personnel."

"As adjutant general of the various forward echelons of FFAF, he worked tirelessly and skillfully to keep the headquarters administrative and the communications procedure at a high level of efficiency. By his broad professional knowledge and exceptional devotion to duty, Major Beamer achieved an enviable record of service to the Air Forces in the southwest and western Pacific areas."

He will be joined in the United States, on his return, by his Australian wife, Merleen. His mother, Mrs. Jennie C. Beamer, lives in Aspers.

"CHUCK" BEAVER DIES IN CRASH

Sgt. Charles (Chuck) Beaver, of Port Royal, a flight officer in the Army Air Forces, was killed in an airplane accident near El Paso, Texas, December 15.

Beaver was a former student at Gettysburg college where he starred in football. He is the fifth of the 1942 starting eleven to have lost his life while serving in the armed forces. Others of that team to have died were Ray Musselman, Bill Florsheim, Mike Baden, and Dick March.

Surviving are his mother who now resides in Montoursville; a brother, Richard, a student at Gettysburg college, and a sister.

Beaver visited at college about a month ago and indicated he planned to resume his studies here in February.

Funeral services at Stimmel's funeral home, Port Royal, today at 2:30 p. m.

Seven Veterans File Discharges

Discharge papers were filed for recording at the court house last Thursday afternoon and Friday by the following:

Pvt. William G. Decker, Bendersville; Pvt. Joseph E. McCauslin, Sr., Gettysburg R. 2; T/Sgt. Leo R. Ginter, Borneauville; and Coxswain Clyde Emory Sloat, Chief Mach. Mate George Ralph Miller, Aviation Ordnanceman 1/C Guy Russell Sentz and S 1/C Herman Edward Bittinger, all of the navy.

Lt. Bernard Stock Now Out Of Army

First Lt. Bernard Stock, son of Mr. and Mrs. Bernard Stock, Gettysburg, was discharged from the army at Camp Carson, Colorado Springs, Colo., October 9, and his terminal leave ended December 17.

At the time of his discharge he was chief of physical reconditioning in the ASF Convalescent hospital, Camp Carson. He will be employed as a physical recondition instructor for bed patients in the ASF General hospital, Camp Carson.

Lieutenant Stock enlisted in the National Guard unit here on October 1, 1940, and served as an enlisted man in the 28th Division. He became an officer at Miami Beach Officers' Candidate School and was then assigned as a physical instructor for glider pilots at the South Plains Army Air Field, Lubbock, Texas, until the base was inactivated in 1944.

JERE CALDWELL RECOVERS CAR; "LEAD" IN PROBE

The real Jere C. Caldwell came to Gettysburg Friday wearing overseas service ribbons and sergeant's stripes—and convinced state police he was the owner of the Buick convertible they have had in storage here since November 12 when its driver was taken into custody.

Sergeant Caldwell at the same time made it perfectly clear that he was not the man arrested as the driver of the car, who was committed to the county jail and escaped 24 hours later by scaling the jailyard wall.

Police say they "have a lead" in the case that the FBI now is working on. The authorities still do not know the identity of the man who identified himself as Caldwell at the time he was picked up for driving a car bearing expired Kentucky license plates. He escaped from jail before police carried out plans to take his fingerprints.

Caldwell told a reporter for The Gettysburg Times Friday morning that he has been stationed at Miami and that he made a trip to his home at Danville, Ky., by air on November 4, remaining there until the 6th when he returned to Florida by plane. While he was enroute back to his post, his car, which had been left in Florida, was stolen from Miami on November 6. He said he has no idea who took the machine.

The car fell into police hands at Gettysburg on the 12th when the car ran out of gas near Pitzer's garage near Aspers. The efforts of the operator to raise cash to buy gas by writing a check on the "First National Bank of Danville" aroused suspicions and police were notified. Caldwell said today there is no such bank as the one mentioned by the mystery man.

The driver was jailed at Gettysburg for investigation and the motor code charge was filed to hold him. The next day the young man escaped by climbing over the jailyard wall with the help of a bench he found in the exercise area. Caldwell, who came to Gettysburg to get his car and prove to police that he is not the fugitive they seek, is enroute to his home on Christmas leave. He is a veteran of three years' service in the Air Corps and served overseas with the 8th Air Force as a ground crew member.

Caldwell was given his machine and continued home to Danville.

FILE DISCHARGES

The following discharges have been filed for recording at the court house by former servicemen: Pfc. Chester E. Litwin, Biglerville; Capt. Joseph H. Riley, of Gettysburg, and S 1/C Steve Miller, from the navy.

SNOWPLOWS GET FIRST WORKOUT OF SEASON HERE

The first real snow of the season, which began falling late December Indiantown Gap on December 13, called forth Gettysburg's snow-fighting forces at midnight and by 8 a. m. Friday streets had been played and snow removed from crossings.

The State Highway department sent 10 plows and four graders out about 7:30 o'clock this morning to work on all roads on the clearance program. Cinder crews worked during the night. Estimates of the depth of the snow ranged downward from about three inches in the Greenstone section.

Storekeepers and others here were requested by Borough Engineer LeRoy H. Winebrenner not to shovel the snow from the sidewalks into the gutters, but to leave it on the sidewalks at the curb.

Borough crews will remove the snow from the curbs. In this way, Mr. Winebrenner said, the snow will not become packed down in the gutters by automobiles. Three trucks were being used Friday to remove the snow.

In addition to the work of the snowplow, six shovellers were used. The regular borough crew was employed to clean the crossings and remove the snow from around the fireplugs. Extra help was hired for snow-loading.

Need More Help

The new parking meters helped the snow removal situation, Mr. Winebrenner said. Only a half-dozen automobiles were left parked in the streets all night, he said, in contrast to many times this number which formerly stood out all night. The necessity of placing coins in the meters at 8 a. m. has led many persons to park elsewhere at night, Mr. Winebrenner explained.

The borough is short of help, and will need more in the next snow emergency, the engineer declared. He said those who can do this work should report either to him or to Harry Turner, highway department foreman.

The snow was the second snow-fall in Gettysburg this season. The first, on December 10, was wetter and melted rapidly. Gettysburg escaped heavy snows and sleet storms earlier in the season which descended upon several other sections of the east.

WILLIAM LUTZ GIVEN MEDAL

Flight Officer William E. Lutz, Jr., pilot, 155 East Middle street, has been awarded the Air Medal it has been announced by Brig. Gen. Charles W. Lawrence, commanding general of the India China Division, Air Transport Command.

The India China Division is completing, by homeward movements of freight and personnel, its war mission of trans-India, India-China and intra-China transport. It has made air history by flying cargo and passengers in regularly scheduled day-and-night transit over routes once virtually unusable, primarily the famed Hump. Its was contribution, say aviation leaders, has provided far-reaching portents for the future of air transport on a world-wide scale. July 1945, saw 71,000 tons across the Hump, while at the moment of Jap surrender the rate was nearly two tons a minute.

"From a small monthly tonnage at the outset," said General Lawrence in a war's-end statement to his troops, "cargo to China has increased until it has been proved that whole armies could be supplied by air in China — and they were, to the distress and destruction of our enemies."

Dr. S. W. Herman Collapses In Pulpit

The Rev. Dr. S. Winfield Herman, pastor of Zion Lutheran church in Harrisburg and an alumnus of Gettysburg college, collapsed in the pulpit of his church Sunday as he finished his morning sermon. He was taken to the Harrisburg hospital and admitted in a satisfactory condition.

The physician attending the minister said the collapse apparently was brought about by extreme exhaustion and that he was unconscious for several minutes.

DR. GRESH TO SPEAK

The Rev. Dr. Ralph R. Gresh, St. James Lutheran pastor, will be the speaker at the weekly dinner meeting of the Rotary club Monday evening at 6 o'clock at the YWCA. The club's annual Christmas party will be an additional feature of the program.

"Thank you for your generous letter of appreciation on the appearance of the Combat Infantry Band in Gettysburg.

"It is a source of real gratification to me that the army Ground Forces have been able to contribute to the success of the Victory Loan drive, and I welcome your assurance that the Combat Band stimulated bond sales in Adams County.

"I should like, also, very sincerely to congratulate you, the Chairman, and the members of your committee on the magnificent job of promotion and preparation which resulted in such a record figure as \$1,288,000, for a single concert.

SEND CABLE FOR U.N.O. CAPITAL IN GETTYSBURG

In a cablegram to the secretary general and the executive committee of the preparatory commission of the United Nations organization, Gettysburg on Monday afternoon, presented itself for consideration as the site of the permanent UNO headquarters.

"Gettysburg presents itself for your consideration and invites inspection as the site for the United Nations capital," said the cable, sent following a meeting at the Hotel Gettysburg of Chamber of Commerce directors and others. "Gettysburg is America's greatest historic shrine," the cable continued. "It is world famed, and symbolizes Lincoln's inspiring concept of peace and freedom for all mankind."

"Ideal Location"

"Gettysburg is ideally situated geographically and climatically. It is located in Pennsylvania, in eastern United States, 150 miles inland, well removed though accessible without difficulty from great centers of population."

The cablegram was signed by Henry Garvin, president of the Chamber of Commerce, Mrs. Helen Snyder, secretary, and Congressman Chester H. Gross, and addressed to the foreign office in Whitehall, London.

Congressman Gross, who brought the matter to the attention of the Chamber of Commerce and others, declared that the interim committee of the world organization will decide Thursday on the inspection of sites proposed to the UNO.

"The United Nations headquarters will be in the United States. It comes here by a one-vote majority. This has been decided. And it is probably coming to the east," Congressman Gross said. "They don't want it located in Washington or any big city. They are going to decide Thursday who is going to look these sites over. We need to take action immediately if at all."

Congressman Gross said he visualized the United Nations capital as a city in itself. The location of this "city" in the vicinity of Cashtown or at some point on the Harrisburg road was suggested at Monday afternoon's meeting.

Those attending the meeting were Mr. Garvin, Henry M. Scharf, John H. Baschore, Edmund W. Thomas, John Teeter, George M. Zerling, C. O. Schweizer and Ralph Z. Oyler, in addition to Congressman Gross.

POLICE CAR IN \$125 ACCIDENT

The borough police automobile in which three officers, Chief Robert C. Harpster, Clark W. Staley and Donald Jacobs, were answering an accident call on Steinhewer avenue, and an automobile owned by Emory Wentz, McSherrystown, and driven by his daughter, figured in a collision at Baltimore and Breckenridge streets, at 11:30 o'clock Monday night. Chief Harpster was driving the police car.

The Wentz automobile, it was reported, had stopped on Breckenridge street to discharge a passenger. It had then pulled ahead into Baltimore street as the police car was speeding southward with its siren blowing according to police. The latter attempted to pull around the Wentz car, but there was not enough room to get through, and it struck the rear fender, police said. Damage was estimated at \$125.

The front fender, a light, axle and steering column of the borough car were damaged.

Police said they were called to Steinhewer avenue to investigate a report that two automobiles had sideswiped. They were able to continue after their own accident, and said damage in the Steinhewer crash was "very nominal." They said they did not have the names of the drivers.

Sailor Honored At Dinner Sunday

Mr. and Mrs. Dorsey J. Schultz, Fairfield R. 1, entertained at a turkey dinner Sunday in honor of their son, Francis Schultz, P 1-c, who is home on leave from the navy. Schultz has served 19 months in the navy, seven of which were in the south Pacific. At the conclusion of his leave he will report at Philadelphia.

Dr. Ralph R. Gresh Is Rotary Speaker

"In a world of suffering, sorrow and want, the Christmas season comes to renew our faith and hope in things eternal," the Rev. Dr. Ralph R. Gresh, St. James Lutheran pastor, told fellow members of the Rotary club at a Christmas Eve luncheon meeting at the YWCA building.

"We have come through a long, difficult struggle," the speaker said. "Our boys have given courage and fighting strength on all the battle fronts and we have asserted our supremacy over the forces of aggression. But we cannot forget the cost in broken bodies, broken lives and broken homes. Men and women everywhere now want peace and good will, the joy of living which the Prince of Peace brought to earth."

The Rotarians exchanged gifts and sang carols. President James S. Cairns presided. Guests included John Saby, John Hargleroad and Clifford Bastuscheck, son and son-in-law of Rotarian R. S. Saby. No meeting of the club will be held next Monday.

DEATH CLAIMS COUNTIAN WHO SHOT HERSELF

Mrs. Alice Alberta Wolf, 42, Reading township, East Berlin R. 1, wife of Pierson M. Wolf, died at the Warner hospital Saturday evening at 7:50 o'clock from the effects of a self-inflicted bullet wound in the forehead.

State police, who investigated the shooting which occurred early Tuesday morning, December 11, reported Mrs. Wolf had shot herself with a small .22-calibre pistol.

Mr. Wolf told State Trooper Frank Yercavage that he found his wife in an outbuilding at their home. He revealed that his wife had been receiving medical attention at various times for the last 20 years and the shooting was attributed to the condition of her health.

Mrs. Wolf was born in York county, a daughter of Martin and Hattie (Joseph) Ellicker, Franklin-town. She was a member of the Dunkard Brethren church, Mechanicsburg.

In addition to her husband and her parents, she is survived by four children, Richard, Adam, Kenneth and Chester, all at home; nine brothers and sisters, Miss Mabel Ellicker, Franklintown; Mrs. Nora Snell, New Cumberland; Mrs. Chester Casey, Bridgeport, Conn.; Mrs. Charles Jacobs, Camp Hill; Harry Ellicker, Siddensburg, Pa.; Percy Ellicker, Mechanicsburg, Pa.; Claude Ellicker, Kurwin Ellicker and Warren Ellicker, all of Harrisburg. A number of nephews and nieces also survive.

COUNTY VETS ENROUTE HOME

James C. Ford, EM 2/C, Gettysburg, was one of 2,000 high-point navy veterans who left Pearl Harbor December 10 aboard the U.S.S. Hendry for this country. Passengers of the Hendry, after arrival at San Diego, were scheduled to go to separation points nearest their homes for discharge.

Robert E. Dunkinson, S 1/C, of 434 South Washington street, returned to the West Coast this month aboard the U.S.S. Arkansas, which saw action in the invasions at Normandy, Southern France, Iwo Jima and Okinawa, according to a navy news release. Fifty-five enlisted men aboard the Arkansas who qualified December 1 for discharge under the point system remained on the 33-year-old battleship to help return 1,100 separates and re-assignees from Pearl Harbor. The Arkansas is expected to report to an Atlantic seaboard navy yard for decommissioning.

SC 2/C Ray E. Hawk, husband of Mrs. Pearl Hawk, Littlestown, left Okinawa December 3 on the U.S.S. Oconto with other high-point navy and marine veterans for discharge at separation points nearest their homes.

Henry Johnson Gets Commission

Henry E. Johnston, Gettysburg, was commissioned a second lieutenant in the Quartermaster Corps at Camp Lee, Va., Friday, December 21. Lt. Johnston and others who were commissioned were given ten days' leave, to include the holidays, after their 17-week training program. They will then report to their new stations.

SIX INJURED, 1 SERIOUSLY, IN 2 CRASHES

Six persons were injured, two so seriously that they remained patients in the Warner hospital today, in two Christmas afternoon crashes on the Lincoln highway east of Gettysburg. Damage in the two crashes totaled more than \$1,000, police estimated.

A large milk tank trailer which figured in the first head-on crash at the end of the three-lane highway near Gudea was enroute to Gettysburg for repairs when it figured in the second crash near Granite station and was so badly damaged that it had to be left at the scene.

The tank truck driver, Lawrence R. Burton, 40, Berwyn, Pa., faces a charge of making an improper pass as a result of a state police probe of the first crash. Icy roads were blamed for the second accident.

Most seriously injured is First Sgt. Claude S. Cooper, 26, Philadelphia, who is unconscious in the Warner hospital with a severe head injury. He may have a fracture of the skull and there may be broken bones in his left knee. His condition has not yet permitted X-ray examination.

Wife Is Injured

His wife, Mrs. Wynona G. Cooper, 23, is suffering from a fracture of the right arm, contusions of the forehead and abrasions and lacerations of the forehead and left knee. She remains a patient in the hospital here.

Sergeant and Mrs. Cooper were enroute from Martinsburg, W. Va., to their home when their car skidded on the icy surface of the Lincoln highway about 4:35 o'clock Christmas afternoon and slid into the path of Burton's truck although the latter had driven to the right side of the road in an effort to avoid a collision, police said.

The Cooper car was demolished with a loss of about \$450 and the front of the truck was so badly smashed that it had to be left at the scene.

Burton was driving toward Gettysburg, when the crash occurred, to have his headlights repaired from damage received in the first collision about 3:35 o'clock when it figured in a head-on crash with the car operated by Robert Glenn Harmon, 40, 228 Cottage Hill road, York.

The driver and three other occupants of the Harmon car were injured and received treatment at the Warner hospital. Burton was unhurt in either mishap.

Officer Saw Collision

Mr. Harmon was treated for contusions of the chest and lacerations about the mouth and face. His wife, who is 37, received abrasions of the left knee, contusions of the forehead and lacerations of the arms and hands.

Doris May Miller, Stallsmith apartments, Gettysburg, aged 12, was treated for multiple lacerations of the forehead and Clair J. Bosserman, 50, 479 West King street, York, received treatment for lacerations of the forehead above the right eye, chest injuries and contusions of the abdomen. Motorists took the injured to the hospital.

The first crash was investigated by Pvt. James Walsh of the Gettysburg substation of the state police who was a witness to the collision while making a holiday patrol. He said he will file an information against Burton before Justice of the Peace William D. Brown, Straban township.

The second crash was investigated by Sgt. W. Kurt Duhrkoff of the local substation.

PHOTO EXHIBIT
IN LOCAL BANK
NEXT FEBRUARY

The Adams County Photographic
Exhibit of 1946, which will be open
to all amateur photographers living
in Adams county, will be conducted
in the Gettysburg National bank
from February 8 to 16, it was an-
nounced Saturday.

The exhibit, which may become an
annual event, is being sponsored by
the Gettysburg Photographic society
and the Gettysburg National bank.

The only requirement placed upon
prints to be entered in the show is
that they be taken by the exhibitor.
It is not required that they be de-
veloped and printed by the exhibitor.

Prints of any size, either mounted
or unmounted, will be accepted. No
hand-tinted prints will be accepted
but prints of regular color photogra-
phy may be entered. Kodachrome
slides, however, will not be accepted.
Every amateur photographer in the
county who enters prints will be
eligible for awards excepting mem-
bers of the Gettysburg Photogra-
phic society.

The prints will not be entered or
judged by classes or subjects but
will be rated upon photographic
merit alone. Pictures may be of any
type of subject—portraits, land-
scapes, animals, still life, story-
telling pictures or any other type.

Prints will be received at the bank
from January 14 to Monday, Janu-
ary 28, inclusive.

The judging of the prints will take
place between January 28 and the
day the display is thrown open to
the public, February 8. The awards
will be ribbons rather than cash
prizes in line with the general prac-
tice followed by photographic ex-
hibitions throughout the country.
The ribbons will indicate the win-
ners.

The judging of the prints will be
done by members of the Gettysburg
Photographic society. The judges will
not know the identity of the ex-
hibitors at the time of the judging.

All pictures entered in the display
will be returned to the exhibitors at
the close of the show.

First Of Its Kind Here
The exhibit will be the first dis-
play of its kind ever presented in
this county. Several years ago the
local Photographic society displayed
a number of its members' prints at
the Gettysburg National bank in
connection with the bank's annual
apple show.

The Photographic society will have
a separate display of its own prints
at the February show. That collec-
tion of pictures will be entirely sepa-
rate from the amateur display. The
society members' display will not
be judged.

COLD WEATHER
SETS RECORD OF
THREE BELOW

New record low temperatures over
the week-end preserved last week's
snowfall and made a white Christ-
mas a certainty for Gettysburg and
Adams county residents.

Saturday night was the coldest
so far this winter when the official
thermometers of Dr. Henry Stew-
art, local observer, registered a
minimum of three degrees below
zero.

There was no drifting over the
week-end and all roads in the coun-
ty were open. Garagemen were busy
answering calls from motorists hav-
ing cold weather difficulties with
their autos and plumbers too were
kept at work thawing pipes.

SGT. HENRY ROTH
GETS LETTER OF
COMMENDATION

Sgt. G. Henry Roth, member of
the news staff of The Gettysburg
Times who was discharged from
army service last week at Indian-
town Gap after nearly 18 months at
Camp Wheeler, Ga., has received a
letter of commendation from First
Lt. Isaiah T. Irvin, acting public
relations officer at Camp Wheeler.
For a month Sergeant Roth was
managing editor of "The Spoke," the
camp newspaper, and after cessa-
tion of publication of that paper as-

EX-SERGEANT ROTH

sisted with the preparation of nu-
merous releases for the local and
national press.

Cited For Service
Lieutenant Irvin's letter follows
in part:

"I wish to commend you for
your superior accomplishments in
the IRTO Public Relations
Office.
"Under your editorship,
'Spoke,' the camp newspaper,
improved considerably. Your un-
tiring, ingenious and skillful ef-
forts made this improvement
possible in the one month you
had charge of the publication;
and, I believe, under the existing
circumstances, no greater at-
tainment could have been real-
ized."

"After cessation of the publi-
cation, you continued to work
diligently turning out numerous
releases for the local and na-
tional press with marked suc-
cess."

"In liaison with the local press
you maintained a friendly work-
ing agreement which went far
toward presenting a most desir-
able picture of the army's aims
and undertakings."

"For your skill, judgment and
endeavors, I have sincere respect
and a high regard and feel this
commendation is far too small to
express my real thanks for a
job well done."

The Macon Telegraph took notice
of Sergeant Roth's leaving Wheeler
with this item:

"Sgt. George Henry Roth, member
of the Infantry Replacement Train-
ing Center's public relations office
at Camp Wheeler and one-time edi-
tor of the camp newspaper, Spoke,
last night, left for the separation
center at Indiantown Gap, Pa.,
where he will be discharged shortly.
"Sergeant Roth served at the
IRTC for 18 months, most of his
time being spent as a member of
the training cadre, until his trans-
fer to public relations. His long as-
sociation with the infantry trainees
gave him an insight which enabled
him to write of their actions with
exceptional clarity."

Sergeant and Mrs. Roth and their
three children live on Barlow street.
Roth soon will return to his duties
on the Times news staff.

Quarry Workers
Buy "E" Bonds

One of the finest bond-buying
records turned in by any Adams
county industry in the current Vic-
tory Bond drive is disclosed in a
report received Thursday by Ed-
mund W. Thomas, county war bond
chairman, from the Bethlehem Steel
Corporation operating quarries
north of Hanover in Berwick town-
ship.

The report shows that during the
Victory Bond Drive 14.8 per cent of
the company's payroll for the 111
participating employees went for
bond purchases.

The workers there have bought
\$5,795.75 in bonds through payroll
deductions and have made addi-
tional cash purchases totaling \$1-
912.50 for a grand total of \$7,708.25.
All of the bonds are E bonds and
are counted at issue price.

The report was sent to Mr.
Thomas by C. R. Orndorff, company
superintendent.

GETTYSBURG IS
COMMENDED FOR
UNO INVITATION

An editorial writer for The Pa-
triot, Harrisburg morning news-
paper, puts Gettysburg on the back
for "pride in its community" in ex-
tending an invitation to the United
Nations Organization to set up its
world capital in this historic shrine.

On Monday members of the Get-
tysburg Chamber of Commerce met
at a luncheon at the Hotel Gettys-
burg with Congressman Chester H.
Gross and there formulated a plan
to invite the UNO capital to Get-
tysburg. A cablegram was sent to
the London meeting of the UNO
officially extending Gettysburg's in-
vitation.

Home Town Pride

Thursday morning The Patriot
published the following as its lead
editorial:

"Gettysburg, now known
throughout the world as the
scene of one of history's most
bloody and critical battlefields,
wants to be known henceforth
also as the seat of the great
experiment for enduring world
peace. Gettysburg has invited
the United Nations Organiza-
tion to establish its home with
it."

"This is the kind of home
pride that is characteristic of
America. Perhaps this sort of
boasting is more vigorous in the
west than in other sections of
the country, but few communi-
ties lack it. Each wants to grow.
Each wants its dot on the map
to become larger. Each has ad-
vantages it claims are far su-
perior to those on any other
community for the pet project
which then happens to be 'in
the fire.'"

"The alert members of the
Gettysburg Chamber of Com-
merce are responsible for the in-
vitation to UNO. Citizens in
this and other communities may
begin wondering where their
own organized town boosters
are in this matter."

"Harrisburg refuses to take a
back seat to any other com-
munity when a matter of this
sort arises. The case may be
hopeless from the start. All
over the eastern United States,
where somewhere UNO head-
quarters will be established,
there will be heartbreaks when
the final decision has been
made, but meantime, win or
lose, boosters in Gettysburg,
Harrisburg or any other com-
munity will have proclaimed
their virtues to the world and
will have adhered to that deep-
rooted American custom of
boosting the old home town re-
gardless."

New R. C. Appeal
For Furniture For
Burned-Out Family

An appeal for bed clothing and
furniture for new living quarters for
Mr. and Mrs. H. T. Doherty and
their two children was renewed to-
day by Glenn L. Bream, chairman
of the disaster relief committee of
the county chapter of the Red Cross.
The Doherty home and store build-
ing were destroyed by fire early the
morning of December 13.

An earlier appeal brought a bed,
two springs and two mattresses for
double beds and a single mattress
from Mrs. Herbert Bowers, Miss
Margaret Bowers, Mrs. Maurice
Weaver, Sr., and Miss Kathryn Rid-
inger.

The Doherty family has rented
living quarters near their former
home between York Springs and
East Berlin and are in need of
furniture.

Persons wishing to contribute may
call the Red Cross office or Mr.
Bream at 280 and arrange to have
their contributions collected be-
tween 9 o'clock Saturday morning
and noon of that day. Delivery will
be made to the Dohertys that after-

RICE AND BARD
TOP LIST FOR
GOVERNORSHIP

Harrisburg, Pa. (AP) — Grass-
roots Democrats in Pennsylvania's
small towns will receive a respect-
ful hearing when the party's top
command considers the 1946 state-
wide slate next month.

With first place on the party ticket
practically assured U. S. Senator
Joseph F. Guffey, of Pittsburgh,
leaders were reported receptive to
bids of gubernatorial material with
appeal to farmers and small com-
munities.

J. Warren Mickle, who succeeded
David L. Lawrence as state chair-
man, hails from Bedford county. He
is pledged to make a drive to build
up party organizations in rural
counties where Democratic strength
has gone downhill in recent years.
So far the only persons with dis-
tinctly rural backgrounds to enter
gubernatorial speculations were
Federal Judge Guy C. Bard and
former State Senator John S. Rice.

Bard was born on a farm in 1895
and still maintains a residence at
Denver in his native Lancaster
county. He was the party's candi-
date for lieutenant governor in 1930
and since then has been in turn a
U. S. attorney, member of the Pub-
lic Utility Commission, attorney
general and federal judge.

Plan 6 Conferences

Rice, mentioned recently for the
party's state governorship indi-
cated then his apple orchards in
Adams county prevented him from
accepting the post. He returned in
October to Gettysburg after service
with the Army Air Force as a
colonel.

Also brought forward as possible
candidates for governor have been
Gen. Carl A. Spaatz of the Air
Forces, a Berks county native; Earl
Harrison, dean of the University
of Pennsylvania Law school and holder
of various federal posts, and
Auditor General G. Harold Wagner.
Wagner has given no hint of his
intentions for 1946 but an associate
reported "he has been looking over
the election returns for 1944"—the
year he was named to his present
post.

Mickle has said he will call a se-
ries of six regional conferences of
county leaders after the holidays to
get their views on 1946.

DR. R. MARSHALL CLAIMS ATOMIC BOMB NO SECRET

The fiction about the "atomic bomb secret" was blasted Friday evening by Dr. Roy K. Marshall, director of the Fels planetarium of the Franklin Institute at Philadelphia, in an address at the annual banquet of the stockholders of the First National bank at the Hotel Gettysburg.

"The atomic bomb 'secret' is a secret everybody knows," Doctor Marshall declared. "Almost anybody can cook up an atomic bomb. Germany knew exactly how to do it."

"England could have made an and so did every other major nation before we used the bombs against Japan."

atomic bomb but the British Isles were too vulnerable to enemy bombing attacks to permit large scale scientific operations involved. The only reason that Germany didn't produce the bomb first was that she was too badly bombed to be able to carry on such operations.

Heds To Have Bomb

"In the United States we could work without the threat of enemy bombing and other Allied nations sent their best scientific 'brains' here to help rush the atomic research."

"Russia can and no doubt soon will produce an atomic bomb and the United States is going to get a frightful shock one of these days when the Russians invite news and military men to the steppes of Russia to witness the first atomic bomb demonstration by Russians. We've got to stop this prattling about keeping a secret that we don't possess—it isn't a secret when everybody else knows it," he continued.

"The fundamental knowledge about the atomic bomb has been in textbooks and physics laboratories for some years."

"Scientists aren't nearly as much worried about the atomic bomb as they are about the ridiculous way in which politicians in this country are handling it. Obviously the United Nations charter is too flimsy to hold the atomic bomb and it's high time to do something about it," he declared. He attacked the "folly" of the present United States foreign policy which has this nation "playing power politics alone."

Doctor Marshall opened his address with a disclosure of the possibility of congressional action limiting scientific research and discussion on atomic energy creating "scientific refugees" from this nation with the result that scientific investigators will have to go to other countries to work. He attacked the May-Johnson bill, passed by the House and now in process of Senate hearings, as proposing flagrant violations of American principles. "It would make a Gestapo out of the FBI and would put scientists and their work under government control," he said.

Helped to Win War

Pointing out that scientists stopped their professional work during the war and devoted their full energies toward aiding victory, he asserted: "We all stopped our regular professional work for war but we won't be regulated in peace."

He labelled much of the current talk about the atomic bomb as "pure nonsense or downright lies." He referred briefly to the great promise for peaceful uses of atomic energy and mentioned specially medical possibilities. He said that before the war cure of cancer cases had been achieved with radioactive substances.

Doctor Marshall traced the history of scientific investigation of radioactive substances since the discovery of uranium radiations in 1896, the year after x-rays were discovered. He made special mention of the work of Mme. Curie in discovering radium. "We don't know the 'why' of radioactivity but we have built up a picture of how the atom looks inside and we know something about its behaviour. The atomic bomb is simply the extraction of a great amount of energy from atoms in a very short term." He described the probable and essential features of the atomic bombs used against the Japs and said that only about one percent of the material in the bomb "went off."

"Price of Peace"

Calling for an intelligent foreign policy that would involve economic concessions to foreign countries as "the price of peace," Doctor Marshall concluded: "Peace is worth paying for. Do all you can to think peace, talk peace and practice peace. If you don't want it, then don't do anything about it—and we won't have peace."

About 155 officers, stockholders and guests attended the dinner, the bank's nineteenth annual event, with President Edmund W. Thomas serving as toastmaster. The Rev. Dr. Dwight F. Putnam gave the invocation.

Mrs. Robert Derek sang "The Italian Street Song" by Victor Herbert and "To Hear the Gentle Lark," by Sir Henry Bishop, accompanied by Mrs. Paul A. Kinsey who then played the 12th Hungarian Rhapsody by Liszt.

President Thomas introduced Penrose Myers, Baltimore street jeweler, as the oldest individual depositor at the First National and said he had been banking there for the past 68 years.

Mr. Thomas also discussed the banking business, stating that the last year had been marked by great increases in deposits and in liquid

MAROONS WHIP FREDERICK FOR THIRD IN ROW

Gettysburg high school's basketball team won their third game in as many starts Friday evening by upsetting a rugged Frederick high school quintet in a rough game played at Frederick 32-26.

Both teams were off to a slow start in the first half when each found it difficult to get the range of the basket. Frederick barged out in front 6-2 in the first period, fell behind 10-9 at half and cracked wide open in the third period when the Maroons took a 27-19 lead to clinch the verdict.

Joe Hess again topped the scorers with 13 tallies while Dick Heintzelman connected for 11. Don Raffensperger, Dave Rasmussen and George Forman put up their usual good floor game and were especially effective in their work beneath the hoops.

Frederick Starts Fast

Frederick, boasting its best team in years, went ahead 4-0 in the first period on goals by Bruchey and Myers before Hess landed a twin-pointer for Gettysburg. Another goal by Bruchey enabled the Marylanders to lead 6-2 at the quarter.

Coach Ridinger's men overtook their opponents in the second period when Rasmussen and Heintzelman landed goals while Hess netted two free tosses and a double-decker. At half time the locals led 10-9.

The Maroon attack clicked in top form in the third period and the Ridinger-men swept into a commanding lead. Hess and Heintzelman each landed three goals in the round with Gorman chalking up two to give Gettysburg a 27-19 lead going into the final frame.

Gettysburg's scoring in the final period was confined to fouls by Hess, Gorman and Heintzelman and a goal by Heintzelman. Frederick tallied on two-pointers by Myers, Fleischman and Gaver with a free toss by Garrett.

Jayvees Win
Fred Haehnen's jayvees scored their second triumph in three starts by trouncing the Frederick reserves 24-17. Frederick led 15-10 at half time but a 15-point rally in the third period put the Maroons out in front until the finish. The Marylanders were held to one goal during the entire last half. Westerhahl landed 14 points for the winners.

The Maroons will now be idle until January 4 when return games are played with York high at York.
